SUMMIT 10TH EDITION

19TH SEPTEMBER 2025 | ITC Maurya, New Delhi

**India's Infra Decade Building
for Billions, Powered by Progress**

Conceptualised and Executed by

The **3Ts** of **TATA PROJECTS** Leading the way for the **'Trusted'** EPC partner in India

We build more than infrastructure—we build trust, progress, and thriving communities. Guided by our 3Ts, every project is a promise kept to our legacy of nation-building and transforming lives.

www.tataprojects.com

Building India's Tomorrow

Welcome to the 10th Edition of the ET NOW Infra Focus Summit & Awards 2025, a decade-long journey of ideas, action, and impact. This year's theme, "India's Infra Decade: Building for Billions, Powered by Progress", is much more than a slogan. It is a promise. A roadmap. And a call to every stakeholder gathering here today: policymakers, industry leaders, innovators, investors, and citizens alike. Together we envision infrastructure not just as steel, roads, or ports, but as lifelines for communities, engines of opportunity, and the foundation of our shared future.

From the moment we gather for registration and networking, to the lighting of the lamp and the keynote addresses, this summit aims to bring warmth, inspiration and clarity. We will hear voices like Lt Gen Raghu Srinivasan, Director General of Border Roads Organisation, sharing views from the frontlines of infrastructure. Visionaries from corporate India and government will explore the journey from project output to outcome, innovation and sustainability in highways, the economic power of airports, the role of ports as coastal lifelines, and the expansion of rail and metro into smart, seamless networks.

What makes this summit especially vital is its pulse: real conversations that matter. Each panel, each presentation is designed to provoke action. You'll see Tata Projects highlight building and infra strategies, JNPA unpack Vadhavan Port's potential, and leaders from Welspun, L&T, and IRB Infrastructure Developers bring in their on-ground judgements and lessons.

We are honoured to bring together dignitaries who have steered monumental change, industry experts who have built from scratch, and young visionaries who are already shaping the future. It is their stories, their successes and stumbles, that turn blueprints into blue skies.

As you flip through the pages ahead, with the agenda, the speaker profiles, the companies, and the institutions, you'll see more than schedules and bios. You'll see possibility. You'll see urgency. And you'll see the collective responsibility we share to build not just infrastructure, but illustrations of progress, connection, and inclusion.

Here's to ideas that break ground. To discussions that break barriers. And to partnerships that transform. Welcome to the start of India's next decade in infrastructure. Let us build it together.

Theme: India's Infra Decade Building for Billions,
Powered by Progress

19th
September

ITC
Maurya,
New Delhi

9.00 AM onwards

Time	Session	Speakers
09:00 - 10:00	Registration and Networking for all Attendees	
10:00 - 10:15	Inaugural Lighting of the Lamp	With key dignitaries from the Ministry and Industry
10:15 - 10:30	Guest of Honour Address	Lt Gen Raghu Srinivasan, Director General, Border Roads Organisation
10:30 - 10:45	Chief Guest Address	Honourable Shri Kinjarapu Rammohan Naidu, Minister of Civil Aviation, Government of India*
10:45 - 11:00	Presentation	Shri Unmesh Sharad Wagh, Chairman, Jawaharlal Nehru Port Authority (JNPA)
11:00 - 12:00	Panel Discussion 1: Reassessing Infrastructure Impact: From Project Output to Project Outcomes	<ul style="list-style-type: none"> • (MODERATOR) Mr. Vinayak Chatterjee, Founder and Managing Trustee, The Infravision Foundation • Mr. Awanish K Awasthi, Advisor to CM – Uttar Pradesh • Col. Parikshit Mehra, Secretary, Govt of Telangana • Mr. Suresh Goyal, Ex-Managing Director & CEO, NHAI InVIT • Mr. Nicolas Schenk, Chief Development Officer, Noida (Jewar) International Airport • Mr. Abhishek Chaudhary, CEO, Welspun Enterprises • Mr. Shailendra Kumar Tripathi, Deputy Managing Director, Kalpataru Projects International Ltd
12:00 - 12:15	Presentation	• Mr. Raman Kapil, President and COO – Buildings & Infra, Tata Projects
12:15 - 13:15	Panel Discussion 2: India's Highways to 2047: Building the roadmap through innovation, speed, and sustainability	<ul style="list-style-type: none"> • (MODERATOR) Mr. Parvesh Minocha, Managing Director, Feedback Infra • Mr. TR Rao, Director - Infra, PNC Infratech • Mr. Bovin Kumar, CEO, Cube Highways • Mr. Akhilesh Srivastava, Roads Safety Ambassador, International Roads Federation • Mr. Satish Pandey, Senior Principal Scientist, HoD Flexible Pavements, CSIR-Central Road Research Institute • Mr. Vijay Agarwal, Managing Director, Equirius Capital • Mr. Sharwan Agnihotri, Head of Sales - NCW & International Business, HD Hyundai Construction Equipment India Pvt Ltd
13:15 - 14:15	Lunch Break	
14:15 - 15:00	Panel Discussion 3: Seamless Port-Inland Linkages: Turning coast lines into economic lifelines	<ul style="list-style-type: none"> • (MODERATOR) Mr. S Sittarasu, Strategic Advisor, Shayam Prasad Mookherjee Port, Ministry of Ports, Shipping & Waterways, GoI • Mr. Subrat Tripathy, CEO, Adani Ports • Mr. Jayanta Basu, Managing Director, ITD Cementation • Mr. Anshumali Dwivedi, Wholetime Director, CFO and Head of Strategy, ESSAR Ports • Mr. Manish Gupta, EVP - Commercial, IT & Policy Advocacy, JSW Infra

UNMESH SHARAD WAGH

JNPA

Mr. Wagh joined the Indian Revenue Services in 2000. He has over 25 years of experience across sectors. Currently serving as the Chairman of the Jawaharlal Nehru Port Authority in Navi Mumbai, and CMD of the Vadhvan Port Project Ltd. - the 13th major port of India, Mr. Wagh looks after the overall management of the JNPA and VPPL. He also holds the role of Director (Operations), IPGL, where he is responsible for the Shaheed Bahishte Port in Chabahar.

It is under his leadership that JNPA stands tall as a global powerhouse, raising the bar for operational excellence and sustainability in trade and logistics. His foresight has positioned JNPA as a critical node in the global supply chain, marking India's footprint on the world stage and bringing mega port projects like VPPL to life. Mr. Wagh has formerly served as the Additional Director of the DRI in Ahmedabad and the Additional Commissioner of the CGST in Vadodara-I, among other positions. In the Ministry of Finance, he has served as Under Secretary, Tax Research Unit (TRU) and Director Excise. Additionally, he has worked on deputation to the Ministry of IT & Communication, Home and Coal in Delhi.

AKHIL GUPTA

CEO & Director, Shapoorji & Pallonji

Akhil Gupta serves as the CEO & Executive Director of the Engineering & Construction business at Shapoorji Pallonji Group, a 150-year-old conglomerate known for building some of India's most enduring infrastructure landmarks. With a career spanning over four decades, Mr. Gupta has been instrumental in scaling the Group's civil engineering and infrastructure portfolio across India, South Asia, Africa, and

the Middle East. Since joining the company in 2004, he has held several strategic leadership roles, including on the Board of Afcons, where he spearheaded diversification into surface transport and global markets. His vision has helped the Group secure marquee projects that reinforce India's rapid infrastructure growth story.

He joined the group in 2004, and has been Executive Director (Operations) and Whole-time Member of the Board at AFCONS. During his tenure at Afcons, he steered the Surface Transport business line, strengthening it for the future. In his career of over 40 years, he held leadership roles in Petron Civil, Punj Lloyd and IRCON.

Driving Infrastructure. Delivering Excellence.

Over 52 years of shaping India's Roads and Highways.

Our Legacy at a Glance

- Established: 1973
- Projects Completed: 100+ across 7 states
- Track Record: 95% on time, 21% early completions
- Business Models: EPC & PPP

AKHILESH SRIVASTAVA

Roads Safety Ambassador, International Roads Federation

Akhilesh Srivastava is the Road Safety Ambassador at the International Road Federation (IRF), honorary Chairman of Bitumen India Forum and External Advisor to McKinsey & Co among many other portfolios he holds. His next-generation technology-driven Road Safety 2.0 initiative led by the World Economic Forum gave a new dimension to the Future of Road Safety in India with a new vision and human-centric road approach, where technology compensates for human and Infra limitations to improve road safety. He successfully led the implementation of many flagship e-governance projects like FASTag (electronic toll collection system of India), e-Tendering Portal (Central Public Procurement Portal used by almost all Central, State governments, and PSUs for procurements), e-Measuring Book (for transparent measurement and recording of projects), citizen-centric highway information Mobile Apps, Geo-Fencing of highways and AI-powered NHA Data Lake. Member and Advisor of top International and National organizations, he is passionate about technology and enjoys innovating & implementing large-scale IT-enabled Solutions to solve citizens' critical problems. He is a globally renowned technology leader, an eloquent speaker, and a bestselling author.

AMBER DUBEY

Senior Advisor, McKinsey & Company

Mr. Amber Dubey is a Senior Advisor with McKinsey & Company in Gurugram, bringing over 33 years of experience across manufacturing, management consulting, and government service. He works closely with clients in aviation, defence, government, and infrastructure, guiding them on vision setting, strategy, operations, and organisational effectiveness.

In 2019, he was among just eight professionals chosen by the Government of India to serve in policy-making roles. As Joint Secretary in the Ministry of Civil Aviation (2019–2022), he led transformative policy reforms in areas such as drones, pilot training, aviation education, and capacity building. Prior to his government service, he spent over two decades in leading consulting firms, with a strong focus on infrastructure, aviation, and defence. He has also contributed to industry development as Co-Chair of Aviation at CII, USIBC, and AMCHAM. In recognition of his service to the sector, he was honoured in 2012 for his "valuable contribution to Indian aviation."

ASHUTOSH JAISWAL

CEO & Director, Century Infra Ltd & Century Ports Ltd

Ashutosh Jaiswal is the current CEO and Director of Century Infra Ltd, a company under the Century Group, and also heads Century Ports Ltd. He has led several pivotal port and logistics initiatives that mark landmarks in public-private partnership infrastructure. One of his most significant projects is the rejuvenation of Khidderpore Docks (KPD-I East) at Syama Prasad Mookerjee Port, Kolkata, under

a PPP (DBFOT) model, amounting to approximately Rs 190 crore. Under his leadership, the first PPP terminal in the Khidderpore Docks began operations with modern infrastructure and a state-of-the-art Terminal Operating System that has substantially improved vessel turnaround and cargo handling capacity. He also oversaw the lease and modernization of six berths at Kidderpore Dock West, boosting capacity for diverse cargo including fertilizers, foodgrains and steel, in a two-phase upgrade.

His strategic direction has positioned Century Infra and Century Ports as major contributors in India's port infrastructure resurgence, combining operational efficiency with long-term investment into multimodal connectivity and modern cargo terminal management.

BOVIN KUMAR

COO, Cube Highways

Mr. Bovin Kumar is the CEO of Cube Highways and Transportation Assets Advisors Pvt. Ltd.. He oversees the operations, maintenance, and long-term management of one of India's largest PPP road portfolios spanning BOT, HAM, and Annuity models. With more than three decades of experience in the infrastructure sector, he has built a

reputation for optimizing asset performance, enhancing operational efficiency, and creating long-term value for institutional investors.

His career includes senior leadership roles in government, consulting, and private equity-backed platforms. During his tenure with NHAI and the Ministry of Road Transport & Highways, he played a pivotal role in PPP procurement, project planning, and enabling works. His international exposure extends to infrastructure projects across the UAE, Nordic countries, and the UK, where he gained critical insights into global standards of asset management and project delivery.

Known for blending technical expertise with strategic foresight, Kumar is committed to advancing lifecycle-driven infrastructure operations that deliver sustainable and resilient asset performance.

KALPATARU PROJECTS INTERNATIONAL LIMITED

DEEPAK TRIPATHI

Director (Technical) Projects Additional Charge,
RITES

Mr. Deepak Tripathi is the Director on the Board of RITES Ltd., where he heads key verticals including Exports and International Business; Quality Assurance and Business Transformation; Leasing, Consultancy and O&M projects for Rail and Metro and many more. With over three decades of experience in the railway industry, he has led business development in trains and rolling stock O&M, the design

and construction of rolling stock infrastructure, and multidisciplinary consultancy projects across railway operations, etc.

His international contributions include leading railway operations, exports, O&M, modernization of railway systems, product and technology development, and global supply chains. He has also pioneered several patented indigenous technologies and led technology transfer projects, including AI-driven initiatives.

JAYANTA BASU

Managing Director, ITD Cementation

Jayanta Basu is currently serving as the Managing Director of ITD Cementation India Ltd. A veteran of the organization, Basu has dedicated nearly four decades to the company and has played a pivotal role in its sustained growth and operational excellence. A veteran civil engineer with nearly four decades of dedicated service to the company, he is a recognized expert in heavy civil and maritime infrastructure, having driven the development of that vertical within ITD.

His leadership has been instrumental in delivering mega-projects in residential, commercial, and marine domain with exceptional execution discipline and long-standing supplier relationships. With 39 years of experience in engineering, construction, project management, and contracts management, Basu has been instrumental in positioning ITD Cementation as a leader in heavy civil engineering. His deep expertise in maritime structures, business development, and tendering continues to strengthen the company's foothold in the infrastructure sector. The company's Board has expressed strong confidence in his continued leadership, citing his domain knowledge and strategic insight as key drivers for the organization's next phase of growth.

**KAPIL KAUL**

Director and CEO, CAPA India

Kapil Kaul is the Director & Chief Executive Officer of CAPA India, a leading aviation consulting, research, analytics, and transaction advisory firm, where he oversees all advisory and research engagements in India and South Asia. He has nearly three decades of experience across the aviation industry, having held senior leadership roles such as CEO-South Asia at the Centre for Asia Pacific Aviation and Vice President roles in India's domestic airlines and aviation services. Under his guidance, CAPA India has grown its presence to become the official Knowledge Partner for major exhibitions like Air Expo India, contributing industry outlooks, analysis on fleet growth and regulation, and offering insights across the full aviation value chain. Among his forecasts, he predicted the addition of about 135 new aircraft in FY 2023-24 for India, highlighting both the scale and challenges of immigration in pilot and ATC capacity. Mr. Kaul is also recognised for establishing CAPA India as a go-to source for aviation intelligence with 700+ advisory engagements globally and over 275 in India and South Asia.

**KAVISHWAR GORALE**Deputy General Manager,
ArcelorMittal Nippon Steel India

Kavishwar Gorale is a highly accomplished professional with over 18 years of experience in the steel industry. He has significant expertise in the detailed engineering, erection, and commissioning of a 5-meter-wide Plate rolling mill. This technical foundation is complemented by his extensive operational leadership, gained during his tenure as Operations

In-charge at Essar Steel, where he was instrumental in ensuring operational excellence.

Currently, as the Deputy General Manager of Technical Marketing and Application Engineering at ArcelorMittal Nippon Steel India, Kavishwar plays a pivotal role in driving strategic growth. His responsibilities include business development, product marketing, new product development, and claims management. His extensive experience, ranging from hands-on technical operations to strategic marketing, positions him as a key leader in the industry, adept at delivering innovative solutions and ensuring client satisfaction.

NADIMINTI VENKATA SUBBARAYUDU

Advisor (PPP), Airports Authority of India

N.V. Subbarayudu is presently Advisor (PPP) at the Airports Authority of India, and an ICAO-ACI certified International Airport Professional. With a distinguished career spanning over three decades, he has risen from an engineer to a strategic leader, gaining a unique ground-up perspective on airport development.

He has been instrumental in landmark infrastructure projects, including new terminals and pioneering technical systems. As Executive Director (JVC/PPP), he spearheaded AAI's strategic partnerships, notably leading the successful Public-Private Partnership initiative for the operation, management, and development of six major Indian airports, shaping the future of Indian aviation.

NICOLAS SCHENK

Chief Development Officer, Noida (Jewar) International Airport

Nicolas Schenk is chief development officer for the Noida International Airport, over 24 years of experience, Schenk brings extensive experience in managing mega projects. His current responsibilities include overseeing the infrastructure developments of the airport, covering the entire life cycle, encompassing strategic planning, master planning, design, implementation and construction, and engineering and

maintenance. He also oversees procurement, sustainability and environment, project programming, and operational readiness and airport transfer functions. His focus on lifecycle delivery and operability has helped embed global best practices into India's newest hub, positioning it as a benchmark for future greenfield airports.

COL. PARIKSHIT MEHRA

Secretary, Govt of Telangana

Col. Parikshit Mehra is an Indian Army officer and internationally-recognized tunneling specialist, now tasked with serving as Special Secretary in Telangana. He is addressing key technical challenges in major irrigation-tunnel projects such as the Srisailem Left Bank Canal (SLBC) tunnel, which has suffered delays and collapse, and other tunnel

works across the state. Mehra's expertise stems from his prior leadership in some of India's most complex infrastructure tunnels—he was a key contributor to the Rohtang and Zojila tunnels, where advanced techniques like NATM (New Austrian Tunneling Method) and rigorous geotechnical engineering were deployed. His contribution is viewed as a landmark move toward professionalizing tunnel project delivery in Telangana, blending military discipline, civil engineering expertise and modern survey & construction practices.

PRAJAKTA WAGHOLIKAR

Section Head – Coated Products, ArcelorMittal Nippon Steel India

Ms. Prajakta Waghlikar is currently serving as the Section Head for Coated Products at ArcelorMittal Nippon Steel India. With a wealth of experience in the steel industry, she plays a pivotal role in overseeing the coated products division, ensuring operational excellence, and driving strategic initiatives. Known for her technical expertise and dedication to

innovation, she spearheads efforts to deliver high-quality coated products tailored to meet the evolving needs of clients. Ms. Prajakta has actively participated in numerous conferences and panel discussions addressing the diverse applications of steel across various industries.

PRITHISH CHOWDHARY

Dy Managing Director,
Titagarh Rail Systems Ltd

Prithish Chowdhary is Deputy Managing Director at Titagarh Rail Systems, which designs and manufactures rolling stock—freight wagons, metro and EMU coaches, and rail components—supporting India's rail modernisation. Under the Chowdhary family's leadership, TRSL has expanded from freight into passenger rail, winning large metro coach programs and scaling facilities in India and Europe. Prithish

has been a visible advocate of pivoting to high-value passenger rolling stock and has highlighted a sharp rise in the passenger order-book share, signalling revenue mix transformation as India's urban rail accelerates. His role spans strategy, capacity expansion and customer engagement, helping position TRSL among the country's leading rolling-stock suppliers.

LT GEN RAGHU SRINIVASAN

Director General, Border Roads Organisation

Lt Gen Raghu Srinivasan leads the Border Roads Organisation, India's strategic road-and-bridge builder across high-altitude and border areas. BRO specialises in creating lifeline connectivity for defence and remote communities particularly, frontier highways, tunnels, airfields and bridges that underpin both national security and regional development. Srinivasan, formerly Commandant of the College of Military

Engineering, has since overseen accelerated works such as the Frontier Highway push in Arunachal Pradesh and clearances coordination with states to fast-track critical links. His tenure emphasises build quality, schedule discipline and inter-agency coordination to open year-round access in the Himalayas—vital for India's infra decade.

RAJESH JETHWANI

Executive Director, Aviation for Western India
Projects & Project Director for Development of
NMIA, AECOM

He leads Independent Engineer services for the Navi Mumbai International Airport and oversees airport design and development projects at Guwahati, Bangalore, Nagpur, and other locations across Western India, which has contributed to AECOM's strategic aviation initiatives.

Navi Mumbai International Airport stands as a testament to his expertise in data-driven solutions, collaborative problem-solving, and an unwavering pursuit of excellence.

With more than 35 years of leadership in the aviation sector, he specializes in managing large-scale greenfield and brownfield airport projects of varying complexities across diverse geographies. His proficiency spans all phases of project delivery—from inception to operationalization, including operational readiness to ensure seamless airport operations. His ability to integrate every aspect of airport projects with precision and efficiency has been a defining hallmark of his career. In addition, he brings extensive experience in business development, securing profitable projects, and building strategic partnerships. His leadership style encourages innovation and continuous improvement, driving sustainable growth and operational excellence. A strategic thinker and effective communicator, he excels in translating complex plans into actionable objectives while inspiring diverse, cross-cultural teams to achieve shared goals.

BHUSHAN DESHPANDE

AVP – Digital Solutions & Emerging technologies

Bhushan Deshpande leads Digital Solutions and Emerging Technologies at Tata Projects Limited, driving innovation and scalable digital project delivery across the EPC value chain. His core expertise lies in Technology Consulting, and solution delivery across IoT, Digital Twin, Industry 4.0, MES, and RPA.

RAMAN KAPIL

President and COO – Buildings & Infra

Raman Kapil is President and COO – Buildings & Infra, Tata Projects Ltd and remains responsible for the performance of the Urban Infrastructure Business Group – a division which comprises of projects such as Buildings, Airports, Data Centres, Factories, Metros, Tunnels, Pump Storage, Water, Roads, Bridges, Ports, Defence and Nuclear.

With over three decades of experience, Raman joined Tata Projects from HCC in 2015 and has led many successful projects like Pune and Chennai Metro, Dedicated Freight Corridor and more. Raman is a Civil Engineer from Bengaluru University and holds an executive MBA degree from ITM Mumbai.

S SITTARASU

Advisor - Kolkata & Haldia Ports, Min. of Ports & Shipping

Mr. S. Sittarasu serves as Advisor to Kolkata & Haldia Ports under the Ministry of Ports & Shipping. He brings a rich experience in port-sector strategy, industrial investment, and maritime infrastructure planning. He has played an instrumental part in attracting and structuring over US\$12 billion in local and global investments across Indian states, especially by positioning port projects as engines of industrial

and export-led growth. Among his recent contributions is his leadership (public commentary and strategic oversight) in the Vadnavan Port project in Maharashtra, which when completed will have capacity of approximately 298 million metric tonnes (MMT), significantly enhancing India's maritime trade infrastructure. Under his advisory stewardship, Kolkata & Haldia ports have seen record growth in cargo throughput (65.66 million tonnes in 2022-23 for SMP Kolkata including Haldia) and have pursued key PPP mechanization projects—for example the mechanisation of Berth-2 at Haldia Dock to improve dry bulk cargo handling capacity. Mr. Sittarasu's vision emphasises improving capacity, port modernisation, and aligning maritime infrastructure with broader trade, logistics and industrialization goals.

SAMPATH KUMAR

Managing Director, Simta Astrix

Mr. Sampath Kumar's entrepreneurial journey spans over four decades, defined by grit, innovation, and an unwavering commitment to quality. A mechanical engineer by training, he co-founded Simta Manufacturing Company in 1991, pioneering the production of transmission belts for India's textile sector at a time when the industry was import-dependent. Under his leadership, the company expanded

globally, exporting to over 15 countries.

He went on to establish Simta Clear Coats Pvt. Ltd. in 2001, supplying clear rollers to global OEMs such as Toyota, LMW, and Rieter, and later founded Simta Machineries Pvt. Ltd. in 2002, introducing Overhead Travelling Cleaners that transformed textile operations. His collaborations with German partners further propelled Simta's international presence.

In 2013, he ventured into uPVC manufacturing with Simta Astrix, which rapidly grew into one of India's top three producers. Refusing to compromise on quality, he positioned the brand as a benchmark of trust. More recently, he spearheaded diversification into ABS and steel doors, aluminium systems, and modular interior solutions, transforming Simta into a holistic provider of durable, world-class living solutions.

SATISH PANDEY

Senior Principal Scientist, HoD Flexible Pavements, CSIR-Central Road Research Institute

Satish Pandey is an Indian scientist and assistant professor with a strong academic background in civil engineering, holding a B.E. and M.Tech from prestigious institutions. He has extensive research and teaching experience, having worked at CSIR-CRRI and MANIT, and has supervised numerous theses and projects. His professional affiliations

include memberships in various engineering councils, and he has received several awards for his contributions to the field. His specialties include : Transportation Engineering, Pavement Analysis and Design, Development of cost effective materials and technologies for construction, rehabilitation and maintenance of pavement, utilization of waste and marginal materials in road construction.

SHAILENDRA KUMAR TRIPATHI

Deputy Managing Director, Kalpataru Projects International Ltd

A graduate in Civil Engineering, Mr. Shailendra Kumar Tripathi has close to four decades of experience in the civil construction, heavy civil infrastructure, industrial plants and Public Private Partnership (PPP). Mr. Tripathi has been instrumental in building the organisation & its people, systems and processes, scaling Company's civil infrastructure business, which includes construction of residential and commercial buildings, industrial

plants, airports, metro rail, water supply, roads, highways and other major civil infrastructure projects across India.

Mr. Tripathi is also at helm of driving innovation, operational excellence and improving competitiveness in the Company given his technical acumen and interest in latest technological advancements in areas of construction, electrical and mechanical areas. Prior to merger of JMC Projects (India) Limited with the Company, Mr. Tripathi has served as Managing Director & CEO of JMC Projects (India) Limited.

He has played a dominant role in expansion of civil business in international geographies bagging mandates to design & build airports, residential buildings and highways. With an entrepreneurial mindset, drive, and foresight, he has helped the Company to venture into untapped geographies in Africa & South East Asia to establish Company's credentials and build long-term relationships with clients.

SHARWAN AGNIHOTRI

Head of Sales - NCW & International Business, HD Hyundai Construction Equipment India Pvt Ltd

Mr. Sharwan Agnihotri is currently the head of Sales (North, Central and West Region) and International Business at HD Hyundai Construction Equipment India Pvt Ltd. He has played a pivotal role in expanding product portfolio of machines for Hyundai Construction Equipment India and also in increasing the export business for the organization. Prior to this role, he

was responsible for marketing and dealer development function for the organization. During his career spanning more than 25 years, he worked with prestigious companies like TATA Hitachi Construction Machinery Company Pvt Ltd, Volvo Buses India and Hyundai Construction Equipment India Pvt Ltd. In his journey of these 25 years with corporate working he worked at various levels in Direct sales, Channel Sales, Key customer management etc.

Mr. Agnihotri is an Engineering Graduate from NIT, Allahabad and has completed his Executive Management Program from IIM, Lucknow.

DR SNEHASHISH DUTTA

CEO - Director, Reliance Airports

Dr Snehashish Dutta is a seasoned business strategist with 26 years of experience across aviation, automotive, engineering, and consulting, where he has successfully driven several multi-million-dollar projects and shaped large-scale transformations. Over the course of his career, he has held prominent leadership roles, including serving as Chief Executive Officer – Airports at Reliance Airports, COO &

Head of Business Excellence at Adani Airports, and Business Head at Tata Motors and BYD for more than 17 years. His earlier career includes senior positions with Piaggio Vehicles, Kirloskar Oil Engines, and L&T-ECC, where he contributed significantly to business growth and operational excellence.

In addition to his corporate leadership journey, he is an accomplished author and coach, having written Discoveries with Coaching: Life & Executive Coaching. As a Global ICF-Certified Coach, CXO and Leadership Coach, International Trainer, and mentor to over 1,000 leaders, he blends deep boardroom experience with advanced coaching expertise.

SUBRAT TRIPATHI

CEO, Adani Ports

Subrat Tripathi is the CEO of Adani Ports and is leading India's largest ports operator, whose port ecosystem handles roughly one-quarter of the nation's maritime cargo. Mr Subrat Tripathy has over 34 years of rich experience in government- and corporate sectors, especially in Railways and ports. Under his expertise, the company is on track to handle 400 MTPA in FY24, toward a 500 MTPA goal by 2025, supported

by expansion across its east and west coast ports. Tripathi is driving strategic development of maritime ecosystems, such as container terminals at Mundra, and integrated industrial zones comprising power, copper, green hydrogen and PVC facilities. He is also overseeing India's new transshipment hub at Vizhinjam, a keystone to minimizing cargo outflows to foreign ports. His vision redefines Adani's role from cargo facilitator to infrastructure-oriented industrial enabler.

He has served in various capacities in Indian Railways as well as Dy. Chairman & Chairman of Paradip Port Trust. He has been deputed for various National and International assignments by the Shipping Ministry which include being a member of committees to study port connectivity, port security and dwell time of cargoes at ports, Suez and Panama Canals for recommendations on the Sethusamudram Project, Singapore and Chinese Ports to study port planning and development.

SUDHIR HOSHING
Vice Chairman, Ceigall India

With nearly four decades of experience in highways, airports, and transport infrastructure, his addition strengthens Ceigall's Board with proven expertise and strategic insight. Dr. Hoshing has led several of India's top infrastructure firms, including as Chief Mentor & CEO of IRB Infrastructure Developers Ltd., Joint Managing Director & CEO of IRB Infrastructure Ltd., Managing Director of Modern Road Makers

Pvt. Ltd., and CEO of Reliance Infrastructure's Road Business. He has also held senior roles at GMR Group, Punj Lloyd, and Oriental Structures.

With extensive hands-on experience in the design, construction, financing, and maintenance of road projects across India, as well as involvement in civil and defense airport projects, Dr. Hoshing brings unmatched expertise to the Ceigall Board. He holds a Ph.D. in Road, Highways & Infrastructure Management from Oxford College of International Studies, a Civil Engineering degree, and a Management degree from ICFAI.

Ceigall India Limited, one of the country's fastest-growing EPC companies with expertise spanning elevated roads, flyovers, bridges, tunnels, highways, expressways, and runways, has strengthened its leadership team with the appointment of Dr. Sudhir Rao Hoshing to its Board of Directors.

SUDIPTA MUKHARJEE
Managing Director, Texmaco Rail & Engineering

Under his leadership, Texmaco—an Adventz Group flagship with over eighty years of heritage in manufacturing freight cars, coaches, locomotive shells, steel castings, bridges and related engineering solutions—has embarked on a transformative growth and sustainability agenda. He is also driving Texmaco's portfolio diversification to reduce dependence on government wagon orders by expanding private sector demand, exports, and niche product capacities

including through strategic acquisitions.

A major achievement under his stewardship is the strategic alliance between Texmaco and Hindalco to manufacture aluminium rail wagons and coaches, backed by a Rs 200 crore investment, aimed at enhancing payload efficiency and reducing carbon emissions for Indian Railways as part of its 'Mission 3000 MT.'

SUNIL SRIVASTAVA
Managing Director, BARSYL

Srivastava is the Managing Director of BARSYL, which is an India-based global railway consultancy firm renowned for delivering end-to-end rail transportation engineering and advisory services. With over 35 years of experience, he has led BARSYL's evolution from a railway consultant focused on Indian standards to a global player designing systems compliant with UK, Australian, American, and Russian norms.

Srivastava also actively engages in mentoring the next generation—delivering industry lectures and strengthening academic-industry collaboration.

SURESH GOYAL
MD & CEO, National Highways Infra Trust (NHAI InvIT)

Suresh Goyal is the MD & CEO of National Highways Authority of India's Infrastructure Investment Trust (NHAI InvIT) which has been set up to monetize operating highway projects under Government of India's National Monetization Pipeline. Goyal helped set up and scale the NHAI InvIT—India's flagship highway monetisation platform—bringing global investors into brownfield road assets and freeing

capital for new construction under the National Monetisation Pipeline. The platform specialises in acquiring operational toll roads, improving O&M, safety and ESG. Goyal also supervised fund-raising from marquee institutions and lenders and advocated retail participation in road assets, while introducing structured safety programs across the portfolio—contributing to professionalised asset management and recurring revenue growth for the trust.

**TR RAO**

Whole-Time Director, PNC Infratech

T.R. Rao is currently a director at PNC Infratech Limited, a leading infrastructure development and construction company. With over three and a half decades of experience in planning, evaluation, development, contract administration, and operation and management of projects across several core infrastructure sectors.

Rao's vast project implementation experience spans across sectors including highways, expressways, airports, ports and urban transport and infrastructure. He has 15 and 20 years of experience, respectively, in the public and private sectors. He has also worked extensively on structuring projects with different implementation formats under the public-private partnership model. He joined PNC Infratech as executive vice president, infrastructure, in 2014 and was elevated to the company's board as a whole-time director in August 2019. In his current role, he is responsible for business development, contract administration, operation and management of projects, and techno-legal matters of the company. He also acts as a director in six subsidiaries of PNC Infratech and Indian Highway Management Company Limited, which implements electronic tolling in the country under the aegis of National Highways Authority of India.

**ABHISHEK CHAUDHARY**

CEO, Welspun Enterprises

Mr. Abhishek Chaudhary is a fellow member of Institute of Company Secretaries of India and a Gold medalist in Law. He brings with him over two decades of rich experience in policy formulation, strategy implementation, project execution, marketing, and operations in collaboration with both State and Central Government. His experience includes managing large-scale infrastructure project(s), project financing, and public-private partnerships. Additionally, he has played a critical role in corporate governance, legal and secretarial matters, solidifying his proficiency in corporate governance.

Mr. Chaudhary has led major projects and marketing initiatives, demonstrating excellence in project management, legal affairs, and government liaison. His contributions to key national initiatives, such as the National Industrial Corridor Development Programme, PM GatiShakti National Master Plan, Logistics Data Bank (LDB), Unified Logistics Interface Platform (ULIP), India International Convention and Expo Centre "Yashobhoomi", reflect his comprehensive understanding of working within various government departments and organizations, further strengthening his leadership profile.

**VIJAY AGARWAL**

Managing Director, Equirus Capital

Vijay Agarwal is the Managing Director and Head of the Infrastructure Practice at Equirus Capital, bringing over 24 years of professional experience in investment banking and infrastructure advisory. At Equirus, he has successfully led and closed six road M&A transactions, a Qualified Institutional Placement (QIP) for a road BOT portfolio company, and structured finance solutions for a leading renewable energy firm.

His expertise spans fund raising through both equity and debt, corporate and business strategy, and driving growth management initiatives for infrastructure companies. Agarwal is widely regarded for his ability to design innovative financing structures that balance investor expectations with sectoral challenges, positioning him as a trusted advisor for infrastructure players seeking sustainable expansion.

**VINAYAK CHATTERJEE**

Founder and Managing Trustee, The Infravision Foundation

Vinayak Chatterjee is the Founder and Managing Trustee of The Infravision Foundation, a non-partisan infra think-tank established in 2022 that shapes policy through action research, advocacy and capacity building across transportation, urban planning, energy, water, rural & agri and health infrastructure. Before leading Infravision, he co-founded Feedback Infra Pvt. Ltd. in 1990, serving as its

Chairman until 2021, transforming it into a key advisor and project manager in India's infrastructure landscape. Chatterjee is well recognized as a strategic thinker and has served as advisor to the Government of India and multilateral bodies, contributed to the PPP model in infra planning. He has authored a book titled 'Getting it Right – India's Unfolding Infrastructure Agenda'.

MRIDUL RAJIVE THOTTOLI

Director - Partnerships (LivSYT)

Mridul has over two decades of hands-on experience as a techno-commercial EPC Business expert, with global exposure to "Concept to Commissioning" activities for Green & Brown field projects in core infrastructure. As Director of Partnerships at LivSYT, he is tasked with building relationships with various State & Central Government authorities and large corporations in India and the Middle East. Additionally,

he plays a pivotal role in enhancing LivSYT's product offerings, ensuring that their SaaS-based solutions are versatile, user-friendly, and tailored to meet the unique and challenging requirements of customers. This adaptability has significantly improved the performance of construction projects involving diverse stakeholders across sectors such as metro rail, highways, buildings, and industrial projects.

Prior to joining LivSYT, Mridul handled key positions in renowned companies like Larsen & Toubro as the Head Business Development (East Africa) and Tata Projects Limited as Business Head for Project Management. Armed with a B.Tech in Mechanical Engineering from JNTU, an MBA from Pondicherry University, and other key industry-level certifications, Mridul enjoys solving construction sector challenges through digitalization and automation. On the personal front, Mridul enjoys spending quality time with his enthusiastic 6-year old, skateboarding and playing badminton.

TATA PROJECTS

Simplify.Create

TATA PROJECTS

Tata Projects is one of the most admired Technology led Engineering, Procurement and Construction (EPC) companies in India. We have expertise in providing sustainable solutions in the execution of large and complex urban and industrial infrastructure projects while also demonstrating strong presence in refineries and petrochemical plants. We leverage our domain knowledge across various business segments to address the shift to clean energy to meet the nation's Net Zero ambitions. We provide ready-to-deploy solutions for semiconductor facilities, mega factories, data centres, refineries, green fuels, roads, bridges, integrated rail & metro systems, commercial building & airports, power generation, transmission & distribution systems, chemical process plants, water & waste management, and mining & metal purification systems. Tata Projects offers one stop service covering entire life cycle of

the project, from project conceptualization to operations & maintenance. It uses innovative technology solutions to offer bouquet of services which includes engineering, procurement, construction, commissioning, inspection & expediting, operations, repairs & maintenance, and shutdown services. Over the years, Tata Projects has received several awards and recognitions for its project delivery and commitment to safety & quality. We are a part of the TATA Group which operates in more than 150 countries across six continents, with a mission 'To improve the quality of life of the communities we serve globally, through long-term stakeholder value creation based on Leadership with Trust'. In 2024-25, the revenue of Tata companies, taken together, was \$180Billion. These companies collectively employ over 10,00,000 people.

JAWAHARLAL NEHRU PORT AUTHORITY (JNPA)

The Jawaharlal Nehru Port Authority (JNPA) is one of the premier container-handling ports in India. Since its inception on May 26, 1989, JNPA has transformed from a bulk cargo terminal into the premier container port in the country.

Currently, JNPA operates five container terminals - NSFT, NSICT, NSIGT, BMCT and APMT. The Port also has a Shallow Water Berth for general cargo. A Liquid Cargo Terminal present at the JNPA Port is managed by the BPCL-IOCL consortium and the additional liquid cargo terminal developed by JNPA will be operated by M/s JSW - JNPT Liquid Terminal Pvt. Ltd. Additionally, the newly constructed

coastal berth links other Indian ports and facilitates enhancing the traffic of coastal containers.

Nestled across 277 hectares of land, JNPA also operates a meticulously designed multi-product SEZ, with state-of-the-art infrastructure, to boost export-oriented industries in India.

JNPA is also developing an all-weather, deep-draft, greenfield port at Vadhvan, the 13th Major Port of India in Maharashtra. It is poised to be among the top 10 ports globally and will be a 100% green port since its inception.

WELSPUN ENTERPRISES LIMITED (WEL)

Welspun Enterprises Limited (WEL) is one of India's fastest-growing infrastructure developers, with a strong presence in Water & Wastewater, Tunnelling, Transportation, and Oil & Gas. Guided by speed, scale, and sustainability, we focus on building resilient, future-ready ecosystems that enrich lives and propel India's growth.

Backed by a robust balance sheet, strong credit ratings, and an asset-light strategy, WEL delivers high-quality projects with innovation and excellence at the core. Our technology-driven approach enables safe, reliable, and sustainable water solutions across the entire cycle—from sourcing and treatment to recycling and return to nature. Landmark projects include India's first multi-storey 418 MLD Wastewater Treatment Facility in Dharavi, Mumbai, and the 2,000 MLD Water Treatment Plant at Bhandup, one of the world's largest.

We are expanding into advanced domains such as micro tunnelling, segment

tunnelling, sewer rehabilitation, and water body rejuvenation, strengthened by our acquisition of Welspun Michigan Engineers and their technology joint venture, Welspun SmartOps.

In transportation, WEL has delivered over 3,200 lane kilometres of roads and highways, including marquee projects like the Delhi-Meerut Expressway, completed 11 months early, and India's widest extradosed cable-stayed bridge over the Ganga at Aunta-Simaria. In 2022, we monetized six road assets for over Rs. 9,000 crore, reinforcing our value-accretive growth model.

Operational excellence, robust engineering, and a "safety-first" ethos define our success. With ESG at the heart of our operations, WEL continues to shape sustainable infrastructure that delivers long-term value for stakeholders and communities alike.

SIMTA ASTRIX

Simta Astrix, established in 1991, has grown into a leading manufacturer of premium uPVC doors, windows, and interior solutions, recognized for blending German precision and Korean innovation with Indian expertise. With a strong commitment to quality and sustainability, the company has steadily expanded its footprint in the building materials sector, catering to both residential and commercial needs. Today, Simta Astrix operates with an annual turnover exceeding Rs. 250 crore and a production capacity of over 18,000 tonnes per annum, underscoring its scale and reliability.

Innovation has been central to the company's journey. German-engineered systems ensure compliance with European standards for thermal and acoustic performance, while Korean ABS door infills

enhance durability, insulation, and sound dampening. By integrating Indo-German and Korean technologies, Simta Astrix has created a unique product line that balances aesthetics with performance. The company runs 15 advanced European extruders and employs specialized German-imported laminates to deliver superior weather resistance, UV protection, and mechanical strength.

Over the years, Simta Astrix has invested consistently in expanding its capacities. Starting with its first extrusion line in 2013 at 1,200 TPA, it scaled rapidly to 18,000 TPA by 2024. The addition of lamination lines in 2017 and 2023 has significantly boosted output, reaching 100 lakh metres annually. These advancements reflect a long-term vision of "Innovation with Purpose."

ARCELORMITTAL NIPPON STEEL INDIA

AM/NS India is a joint venture between ArcelorMittal and Nippon Steel, two of the world's leading steelmakers. Established in December 2019 following the acquisition of Essar Steel, we are an integrated flat steel manufacturer, with operations spanning the entire value chain- from iron ore to ready-to-market products.

With a diverse portfolio of over 600 steel grades, many serving as import substitutes, we cater to critical sectors such as automotive, agriculture, infrastructure, defence, and energy, thereby contributing to the vision of Aatmanirbhar Bharat. Our offerings include hot rolled coils, sheets, plates, cold rolled coils, galvanized and pre-painted galvanized sheets, and pipelines. Our guiding philosophy—Smarter Steels, Brighter Futures—reflects our commitment to progress with sustainability. We empower communities by generating

employment for more than 1.6 lakh individuals and enriching millions of lives through wide-ranging CSR interventions. Inspired by ArcelorMittal's XCarb programme and Nippon Steel's Zero Carbon initiative, we are aligned with India's ambition to achieve carbon neutrality by 2070. Our partnership with Greenko for renewable power and storage marks a significant stride towards this goal.

Additionally, our collaborations with the National Small Industries Corporation and National Skill Development Corporation reinforce our dedication to strengthening the MSME ecosystem and fostering skill development across the country. At the core of our operations lies an unwavering focus on health, safety, research, and innovation.

AM/NS India is a trusted partner in nation-building, driven by purposeful, inclusive, and sustainable growth.

BHARAT VANIJYA EASTERN PVT LTD (BVEPL)

Bharat Vanijya Eastern Private Limited (BVEPL) is a leading infrastructure development company based in Eastern India, with over five decades of expertise in road, bridge, and civil construction. Established in 1973 as a trading firm, BVEPL transitioned into civil contracting in 1983 and has since emerged as one of the premier EPC contractors in the region. Promoted by Shri Pradip Kumar Bhadra & family and late Shri Dwarka Lal Agarwal & family, the company is today led by the second generation, Shri Debdeep Bhadra and Shri Gokul Agarwal, both civil engineers who have infused strong technical capabilities and modern management practices into the business.

BVEPL has successfully executed more than 100 government-awarded projects across seven Indian states, serving esteemed clients such as NHAI, MORTH, State PWDs, and reputed private developers including Ashoka Buildcon, DRA Infracon, and Shrem Invit. With a team of 1000+ professionals and state-of-the-art equipment, the company

is renowned for timely delivery, quality execution, and financial strength. Over 95% of its projects have been completed ahead of schedule, underscoring its commitment to excellence.

The company is ISO-certified (ISO 9001:2015, 14001:2015, 45001:2018, 17025:2017) and recognized as a Great Place to Work 2023 and 2024, reflecting its strong value system and people-first culture. Over the years, BVEPL's excellence has been recognized with prestigious industry accolades, including Project of the Year-Roadways at the Construction World Global Awards 2025, the title of Most Admired Emerging Infrastructure Company (Roads) at the ET Now Infra Focus Awards 2024 and Gold Award for Excellence in Project Management by the Ministry of Road Transport and Highways in 2022. With a proven track record and growing expertise, BVEPL continues to build infrastructure that connects people, drives growth, and shapes a sustainable future for India.

INDIA INFRASTRUCTURE FINANCE COMPANY LTD (IIFCL)

IIFCL is a wholly-owned Government of India company set up in 2006 to provide long-term financial assistance to viable infrastructure projects.

As a long-term lending institution, IIFCL is amongst the most diversified public sector infrastructure lender in terms of eligible infrastructure sub-sectors and product offerings. It has the mandate to finance both green-field and brown-field projects, covering Direct Lending, Takeout Finance, Refinance and Credit Enhancement, across all infrastructure sub-sectors

as notified by the Government in the Harmonised Master List of Infrastructure Subsectors. These broadly include transportation, energy, water, sanitation, communication, social and commercial infrastructure.

On a standalone basis, till 31st March 2025 the Company has cumulatively sanctioned over Rs. 3 Lakh Crore and disbursed more than Rs. 1.5 Lakh Crore.

The company recently set a benchmark as the first NBFC-IFC with an ESG Rating.

KALPATARU PROJECTS INTERNATIONAL LIMITED

KALPATARU PROJECTS INTERNATIONAL LIMITED (KPIL),

Kalpataru Projects International Limited (KPIL) is a leading global engineering and construction company, listed on the Indian stock exchanges, with a diversified portfolio spanning Power Transmission & Distribution, Buildings & Factories, Water Supply & Irrigation, Railways, Oil & Gas Pipelines, Urban Mobility (including flyovers and metro rail), Highways, and Airports.

As of March 31, 2025, KPIL has a robust order book of INR 65,475 Crore and consolidated revenue of INR 22,316 Crore for FY25. Backed by its footprint in over 75 countries, strategic acquisitions including Fasttel Engenharia in Brazil

and Linjemontage in Sweden, and a 23,500-strong workforce representing 55 nationalities, KPIL exemplifies global scale, diversity, and expertise.

KPIL is deeply committed to sustainable development, recognizing the critical balance between economic growth and environmental stewardship. The company has set aspirational environmental goals—aiming for water neutrality by 2032, circularity by 2035, and carbon neutrality by 2040,—to ensure that its world-class infrastructure projects not only drive progress but also contribute positively to the planet's future.

HYUNDAI
 CONSTRUCTION EQUIPMENT

HYUNDAI CONSTRUCTION EQUIPMENT

HD Hyundai Construction Equipment India Pvt. Ltd. has emerged as a beacon of manufacturing excellence in India and beyond. Since initiating operations in India in 2007. Our integrated facility in Pune, sprawls across 50 acres with a manufacturing capacity that exceeds 9,000 units per annum.

Our award-winning range, spanning from 3T to 50T excavators, and 3T & 5T Wheel Loaders reflects our commitment to precision engineering and cutting-edge technology. We ensure that our products meet the requirement of the market. More

than 45,000 excavators successfully under operation in India and across the globe. We are the no. 1 Exporter of Excavators from India.

With over 200 touch points we are committed to provide excellent customer support and ensure parts availability in the remotest part of the country. We are adding value to complete life cycle of customer by giving an option of Rebuilding their existing machines with our cutting-edge technology at our state-of-the-art XL rebuild centre in the Chakan plant.

ENCRAFT INDIA PVT. LTD.

Encraft is a market leader in manufacturing uPVC profiles in India. With a countrywide presence, the company provides customized solutions in windows and doors to suit the harsh climatic and environmental conditions anywhere in India. It is a product brand of ENCRAFT India Pvt. Ltd., the flagship company of the DCJ Group.

The company's supply chain and the manufacturing facility is well equipped to meet the growing business needs of our consumers globally. Encraft has the largest network of dedicated fabricators who were well trained and well equipped with all the knowledge to help consumers

get the best doors and windows solutions.

With a vision to create desire by exploring the boundaries of fenestration solutions, we have combined 40 years of know how in the window industry with advanced technology, high tech machinery and a strong local presence to ensure maximum satisfaction to our customers.

Our systems are engineered with precision and are masterpieces of art, they offer a lifetime of style, strength and security. These systems come in a range of customized designs and wooden finish to match with all décors.

JSW INFRASTRUCTURE

As part of the esteemed JSW Group, JSW Infrastructure has emerged as India's second-largest private port operator, setting new benchmarks in efficiency, sustainability, and technological advancement. Today, the company operates 12 world-class ports and terminals across India and the UAE, with a combined cargo handling capacity of 177 million tonnes per annum (MTPA).

Founded in 2004 with a modest 5 MTPA terminal at Mormugao Port, JSW Infrastructure began by catering to the captive logistics needs of JSW Steel and JSW Energy. Through strategic greenfield investments, JSW Infrastructure developed its first ports at Jaigarh and Dharamtar, laying the foundation for a strong and scalable logistics network that efficiently handled key industrial cargo such as iron ore, limestone, coal, and steel.

By FY 2024-25, the company had grown

into a major player, handling 117 million tonnes of cargo, including dry bulk, liquid bulk, and containers—offering high operational reliability while minimising environmental impact.

As India positions itself as a global economic leader, JSW Infrastructure is preparing for its next phase of growth. The company aims to more than double its capacity to 400 MTPA by FY 2030 or earlier, supported by expansions in terminal capacity, port connectivity, and inland logistics.

Through a growing network of Inland Container Depots (ICDs), rail terminals, and multimodal corridors, JSW Infrastructure is building an integrated logistics network that links ports to factories, consumption centres, and export hubs—unlocking faster, cleaner, and more efficient supply chains

LIVSYT

LivSYT is a next-generation construction management platform that transforms how infrastructure projects are executed. By digitizing site operations, LivSYT replaces manual processes with real-time dashboards, automated workflows, and AI-driven updates. Its AI Solution allows engineers to simply speak or type updates, with the platform instantly

verifying and syncing progress—even offline. This reduces delays, boosts accountability, and ensures projects stay on track. Trusted across multimillion-dollar rail and urban development projects, LivSYT empowers governments with accountability, developers with efficiency, and communities with safer, greener infrastructure.
